

Trust BOLDplanning to make your Emergency Operations Planning (EOP) better and more efficient.

EMERGENCY OPERATIONS PLANNING (EOP)

When disaster strikes, organizational leaders have a duty to take immediate action. The Emergency Operations Plan (EOP) is a critical tool for understanding the right steps to take to protect lives and assets. However, the process for developing and maintaining an EOP can be cumbersome and time consuming without proper tools and guidance.

BOLDplanning specializes in Emergency Operations Planning (EOP). We offer a dedicated team of experienced planners and Certified Emergency Managers (CEMs) who are skilled in deploying our proven planning methodology.

Our division of experts, coupled with our world-class online software platform, allows BOLDplanning to help its clients create and manage an effective EOP that matches the specific needs of their organization.

Comprehensive Capabilities

Whether your jurisdiction has an existing EOP that needs updating, or you are starting from a blank page, BOLDplanning can help. We can manage the EOP process from beginning to end, saving your organization time and money.

PEOPLE ARE TALKING

“Our paper EOP was lacking. It was well written and had passed our state’s review process with flying colors, but employees and emergency partners still did not know their role in emergencies. Exercises helped close the gap, but something was still missing.

Enter BOLDplanning. The EOP module within their COOP software allowed me to assign specific responsibilities to partners.

Better yet, BOLDplanning’s EOP allowed me to run a report with a list of these duties for every part of the plan.

Partners gained a fuller understanding of their roles and responsibilities and are more connected to the plan than ever.”

Ken Jones
Director of Emergency Management
Rochester, MN / SE Region 1 HSEM JPB

BOLDplanning's comprehensive EOP platform allows you to:

- Develop clear and concise team roles across the organization and its divisions
- Create multi-tiered Orders of Succession and Delegations of Authority
- Keep a file repository for redundancy and backups
- Utilize a built-in SMS and email emergency messaging system
- Track and monitor version changes with advanced editing capabilities

Contact BOLDplanning today for a free, no-obligation consultation.

Standards-Based Plans

Our EOP team constantly monitors federal and state guidance and incorporates feedback from real events to best apply FEMA's Comprehensive Preparedness Guidance (CPG 101), the National Response Framework (NRF), and the National Incident Management System (NIMS) to plans.

Easy & Accessible Online Platform

Our planning platform offers extensive capabilities. And because it's online, diverse stakeholder input can be gathered and maintained directly within the application. The software makes the process easy to understand and highly efficient to sustain.

Training & Exercising

BOLDplanning training and exercise packages range from minimal workshops and tabletop exercises to complete project management for multi-year initiatives. The BOLDplanning training approach conforms to all DHS/FEMA guidance including the Homeland Security Exercise and Evaluation Program (HSEEP)--a proven framework for exercise design, conduct, evaluation and improvement.

In addition to EOPs, BOLDplanning helps organizations manage other related planning initiatives, such as Continuity of Operations/Government (COOP/COG), Business Continuity Planning (BCP) and Hazard Mitigation Planning (HMP).

Trust BOLDplanning to help facilitate a streamlined and standardized preparedness approach for your organization.

About BOLDplanning Inc.

BOLDplanning Inc. is the preeminent developer of online solutions for Emergency Operations Planning (EOP), Continuity of Operations Planning (COOP), Business Continuity Planning (BCP) and Hazard Mitigation.

Our comprehensive online platform walks planners through each step of the continuity and emergency planning process, becoming the central resource for an organization's plan development, training and ongoing maintenance. Our consulting team is unrivaled in its knowledge and experience, and includes internationally certified CBCPs, CHPCPs, FEMA certified continuity professionals (PCP/MCP) and IAEM Certified Emergency Managers (CEM).

The BOLDplanning approach provides an unparalleled platform for both the public and private sector, making the critical process of contingency planning easy and efficient. Currently, BOLDplanning is the solution of choice for more than 10,000 organizational plans.

NOW YOU'RE READY.
