preparedness planning easier
and more effective.*

HEALTHCARE EMERGENCY & CONTINUITY PLANNING (ECP)

Healthcare facilities and their staff play a key role in emergency preparedness efforts for all types of events, including natural or man-made disasters, pandemic outbreaks or terrorist attacks. The availability of healthcare is essential to accommodate the surge in demand for providing care related to any emergency.

However, the process of developing, maintaining and testing emergency plans can be daunting and time consuming.

With its expert consulting, world-class online software platform and superior training, BOLDplanning can make your preparedness planning easier and more effective.

Expert Consulting

The BOLDplanning approach is built around the DHS/FEMA planning elements required for federal, state, regional, local and tribal organizations (as well as private sector best practices). We monitor all current planning guidance, including major national initiatives and updates.

In addition to understanding preparedness planning requirements, our experienced consultants are skilled facilitators and communicators. These facilitation skills, alongside a proven BOLDplanning methodology, generate greater participation and interaction across the organization and across key stakeholders.

PEOPLE ARE TALKING

"With the implementation of CMS guidelines, we had to enhance our safety management plan and processes.

The BOLDplanning platform made this process seamless. The readiness features (SMS text, email, delegating authority) are very detailed without being cumbersome.

Collectively as a team, internally and including our BOLDplanning partners, we managed to create and share our facility plans with the staff effortlessly."

Billie Inclan
Director of HR/Safety & Risk Officer
Oakhurst Medical Centers
Atlanta, GA

BOLDplanning's comprehensive healthcare ECP platform includes:

- Delegations of Authority
- Orders of Succession

World-class Online Platform

BOLDplanning's leading-edge, online planning platform is designed to help healthcare organizations of all types and sizes create practical and compliant plans. As a cloud-based solution, the plan is accessible from virtually anywhere at any time. Plus, it's easy to use, yet flexible enough to meet unique requirements.

Superior Training & Exercising

BOLDplanning training and exercise packages range from minimal workshops to complete project management for multi-year projects. The BOLDplanning training approach conforms to all DHS/FEMA guidance, including the Homeland Security Exercise and Evaluation Program (HSEEP)—a proven framework for exercise design, conduct, evaluation and improvement.

Healthcare providers across the country turn to BOLDplanning to assist with their emergency plans. From small, rural providers to large hospital networks, BOLDplanning can help facilitate a streamlined and standardized preparedness approach throughout your entire organization.

About BOLDplanning Inc.

BOLDplanning Inc. is the preeminent developer of online solutions for Emergency Operations Planning (EOP), Continuity of Operations Planning (COOP), Business Continuity Planning (BCP) and Hazard Mitigation.

Our comprehensive online platform walks planners through each step of the continuity and emergency planning process, becoming the central resource for an organization's plan development, training and ongoing maintenance. Our consulting team is unrivaled in its knowledge and experience, and includes internationally certified CBCPs, CHPCPs, FEMA certified continuity professionals (PCP/MCP) and IAEM Certified Emergency Managers (CEM).

The BOLDplanning approach provides an unparalleled platform for both the public and private sector, making the critical process of contingency planning easy and efficient. Currently, BOLDplanning is the solution of choice for more than 10,000 organizational plans.

NOW YOU'RE READY.

Be prepared. Be **BOLD**.
